One Source – One Solution

*Reaching out... through IT®*

## Background

Organizations come across many executive problems. They spend days preparing reports; leave applications, expense imbursement etc. Accounting takes away their major chunk of time if it is not integrated with the concerned system. Bulk paper documents are unable to fit the cabinet. To put rest to these existing issues, Open source ERP-Odoo came in as a ready reckoner.

Odoo is a comprehensive suite of highly customizable open source based enterprise management applications. It is way ahead of all traditional ERPs, evolves much faster than other traditional ERP solutions, comes at lower cost, and offers utmost flexibility, adaptability, modularity, and usability.

## Open source ERP – One Solution

With numerous downloads/installations per day, OpenERP-Odoo is one of the most used open source solution across the world. It offers a wealth of functionalities with over 1000 modules that can be deployed to meet the business needs. It allows a selection of required key modules - Sales, CRM, Project Management, Warehouse Management, Manufacturing, Financial Management, Human Resources, Travel, Payroll Process, etc. to name a few common key modules.

Odoo is available in the cloud as well as on-site and is most suited for small to mid-sized companies. It is a comprehensive suite that helps save substantial amount of money. Its modules can be integrated and expanded with the course of time. Its updated technology also enables companies to unify their business processes smoothly and effectively.

HTC has to its credit several ERP installations and maintenance projects of various Enterprise Applications. It has been in the business for over two decades. HTC's Odoo Center of Excellence (CoE) custom develops, implements, and provides post implementation support and enhancement services for modules such as - Human Resources, Resources, Employee Performance Appraisal, Finance and Accounts, Reimbursement Management, Materials Management, Sales Management, CRM etc.

## Benefits accrued:

- Odoo is highly customizable and can be easily modified to suit organizational needs
- Better framework and easy configuration
- Easy accessibility
- Cost-effective and time saving
- Non-dependency on a single-vendor
- Rich in advanced technology
- Open source- So no license needed

## Our Experience

### Customization and implementation of Odoo

The client, a leading global provider of procurement intelligence and customized market research was facing challenges with consolidation of reports. HTC helped the client with seamless integration of multiple departments for enabling easy report generation.

### HTC's Solution

HTC implemented Odoo with the following modules – Recruitment, HRMS, Project & Billing (timesheet), Appraisal, Travel and Reimbursement, Leave Management and Payroll. This helped the client in seamless integration across departments and save substantial amount of money.
